

## Medical Records

Hopewood County Urgent Care Center  
2711 Nightingale Lane  
Hopewood, Mock State

Patient Name Javier Díaz Date of Birth 03-01-99 Sex Male

Address 1234 Tulip Lane, Hopewood, Mock State Date 09-15-14

**Notes:** Javier, 15 year old male, was brought in by Police Officer Gary Ridgefield and CPS on-call worker Kathleen Minor for an injury. His aunt (and legal guardian) checked him in, but did not remain with him for the exam. Patient's uncle (also legal guardian) struck Javier with his fist during an argument. Exam revealed a contusion of the right eye with small cut, swelling, and discoloration beginning. Patient denies any vision problems or any additional injuries. Full body exam revealed no other marks, abrasions, or injuries. Vision and eye movement appeared normal. No evidence of subconjunctival hemorrhage, corneal abrasions, or corneal lacerations.. Blood pressure, heart rate, and other vital signs were unremarkable.

Patient should take acetaminophen 3X daily for pain. Antibiotic ointment to be applied topically morning and night. Apply ice packs tonight for pain and swelling. Patient will return or see an ophthalmologist if any complications occur.

Complications include infection (drainage or fever), swelling that doesn't subside, changes in vision or eye movement, increase in pain, and/or blood in the eye.

Patient's aunt was waiting in lobby, so he was released to CPS worker Kathleen Minor and Officer Gary Ridgefield. They verified that I do not have to report the abuse, due to their already being involved.
